L'instance de Vue

L'instance de Vue

```
1 new Vue({
2   el: '#app',
3   data: {
4     // Data stuff
5   },
6   methods: {
7     // functions
8   },
9   created: function() {
10    // Executes on creation
11  },
12  computed: {
13    // Computed properties
14  },
15  filters: {
16    // Text filters
17  }
18 })
```

L'instance de Vue

```
1 new Vue({
2   el: '#app',
3   data: {
4     count: 0
5   },
6   methods: {
7     incrementCount: function() { this.count++ }
8   },
9   created: function() {
10     console.log('Counter ready')
11   },
12   computed: {
13     counterPlusTen: function() { return counter + 10 }
14   },
15   filters: {
16     timesIncremented: function(value) {
17       return `Incremented ${value} times!`;
18     }
19   }
20 })
```

Directives

Directives

v-if

```
1 <div id="app">
2   <div v-if="Math.random( ) > 0.5">
3     Maybe you can see me..
4   </div>
5   <div v-else>
6     Or maybe not!
7   </div>
8 </div>
```

Directives

v-for

```
1 <div id="app">
2   <ul>
3     <li v-for="item in items">
4       {{ item.message }}
5     </li>
6   </ul>
7 </div>
```

Directives

v-model

```
1 <div id="app">
2   <input type="text" v-model="username">
3 </div>
```

Directives

v-bind

```
1 <div id="app">
2   <!-- v-bind:src or :src -->
3   
4 </div>
```

Événements

Événements

```
1 <div id="app">
2     <!-- v-on:click or @click -->
3     <button type="button" v-on:click="increment()">
4         +1
5     </button>
6 </div>
```

Go !

```
